

NET HEALTH® THERAPY FOR CLINICS

EHR SOFTWARE

Designed for the Future of Rehab Therapy

Net Health Therapy for Clinics is a specialized EHR that enables outpatient rehab therapy practices to differentiate and grow their services.

Unlike off-the-shelf EHRs with rigid workflows and a one-size-fits all approach that inhibits growth, Net Health Therapy is an enterprise solution for any size operation that provides a fully customized experience based on the way you work. Our solution enables your practice to grow with process automation that increases efficiency, ensures compliance, and safeguards revenue; intelligent revenue tools that adapt claims to local payers; and a patient engagement and marketing suite that improves patient acquisition and retention.

Net Health Therapy for Clinics is used in thousands of rehab therapy clinics, including some of the largest in the United States.

Evals take me 5-7 minutes due to the enhanced workflow and features."

"The billing is the best product for revenue services compared to others on the market."

Product Highlights

Enterprise solution for any size.

Grow your business.

Tailor the system to how you work.

Automation from end to end.

Strengthen patient-therapist relationships.

Enterprise Scalability

- Invest in a future-proof solution with top-notch security no matter your size
- Support your current operations with a reliable and interoperable system
- Provide compatibility across devices and browsers.

Revenue Optimization

- Ensure consistent, accurate and complete claims creation and submission across your organization
- Receive timely reimbursement and accelerate month-end processes
- Automatically convert therapy services to optimal coding for each local payer

Customized Experience

- Tailor the system to how your practice works from an organizational level down to individual user roles
- Drive corporate standards with custom workflows and discipline-specific documentation templates
- Save time (and headaches) while maintaining high quality, accurate documentation

Process Automation

- Automate processes across all roles, from front desk to therapists to billers
- Improve efficiency for all staff while maintaining compliance and boosting revenue
- Ensure documentation is compliant, complete and timely

Patient Engagement

- Expand your business and boost revenue by improving patient acquisition and retention
- Automate patient review capture, promotion, and online reputation management
- Maximize existing staff and resources to create strong relationships with patients
