

2027 20th Annual Graham Sessions

Logistics and Planning Guide

January 21–23, 2027 • Hutton Hotel • Nashville, Tennessee

All Graham Sessions programming will take place at the Hutton Hotel.

About the Graham Sessions

For two decades, the Graham Sessions has created a space for physical therapy professionals to have the conversations that push our industry forward. The event is built around candid, constructive discussion, debate and the exchange of perspectives on issues shaping physical therapy and health care. Rather than a lecture-heavy meeting, Graham Sessions invites participants to engage directly with one another, challenge assumptions and help improve the profession for patients and practitioners alike.

The full 2027 agenda will be shared as it is finalized.

Event at a glance

Travel and transportation

Flying into Nashville

Nashville International Airport (BNA) is the primary airport for the event. The Hutton Hotel is approximately 9 miles from BNA, and the drive is typically around 15–25 minutes depending on traffic. The hotel does not provide an airport shuttle, so plan to use a taxi, rideshare or rental car.

Getting around

The Hutton Hotel is in Midtown Nashville near Music Row. Rideshare and taxi service are convenient for reaching downtown attractions, restaurants and entertainment areas. Downtown Nashville and Lower Broadway are highly walkable once you arrive in that area.

Nashville at a glance

Nashville offers live music, restaurants, museums, sports and nightlife throughout the downtown area. Lower Broadway is the center of the city's honky-tonk district, while nearby neighborhoods such as SoBro and Music Row offer additional dining, entertainment and cultural attractions.
