

# Sidekick

The only AI scribing solution for PTs and OTs with built-in CPT coding feedback and documentation compliance.

## Reclaim Your Nights & Weekends

### Cut documentation time up to 75%

Therapists are more focused on patients and get home on time. Win-win.

### Increase functional CPT codes up to 20%

Real-time CPT coding help takes the guesswork out of coding.

### Up to 30% higher compliance in 1 month

Built on a deep PT/OT compliance model and 24/7 real-time answers to clinical and administrative questions

## What Therapists Are Saying

"We were all mouth open, almost **high-fiving, fist-bumping doing notes.**"

"**This gives me confidence** in my documentation."

"I can be a lot more **hands-on with my patients** and not have to worry about documenting at eleven o'clock at night"

"**Everyone needs to know** about this!"

# Practice Intel

Complete visibility into your compliance risk and CPT coding accuracy, integrated directly into your EMR.

## No More Chart Reviews

### 100% Compliance Transparency

AI analyzes every word of every note so you know how documentation will stand up to an audit.

### Monitor & Improve CPT Coding Accuracy

CPT Insights identify "under-coded" CPT code assignments and inefficient minute allocation.

### Locate & Fix Risk

Utilize analytics by clinic and provider such as time-to-sign-off, excessive documentation, and copy-forward tracking.

## What Clinics Are Saying

"We tend to do the best business with organizations that have **overlapping goals and are great to work with**. PredictionHealth fits both molds."

"We were able to raise our **payments per visit by \$9** per visit"

"...**unparalleled, comprehensive, and unbiased insights** into our team's performance—a capability I haven't encountered elsewhere."

"Within just two months, **my personal compliance score jumped by over 15 points** (on a 100 point scale)"
